signage for King Edward Street awaited. A query from a resident to the NLC Ward Officer about the Wray Street / Traingate area was redirected to the Town Council and despite querying this no response was received back from the Officer. Signing up to the 'Community Alert' system was promoted. There was discussion about tackling anti-social behaviour such as dog fouling by keeping the dog warden aware of problem areas to visit. The difficulties in getting responses and action from NLC was also discussed further at this meeting, with the agreement that communities themselves are active but there is not enough staff within NLC to respond.

- North Lincolnshire Council – Civic Dinner – 7<sup>th</sup> March. Cllr Kofoed had attended, but was not present to give a report.

This was a positive step forward from central government and more information will follow in due course.

It was clear that different areas of the proposed Greater Lincolnshire are looking for different outcomes. An update was provided about a large project to review waste collection, including food waste, with a full review of containers and collection routes to take place. NLC were asked if they were under pressure from potential solar farm developments and this was not answered. #### 2503/07 KLASSIC (Charity Number 1115978)

The Council received an update on the transfer of assets, liabilities and undertakings of the charitable trust to a Charitable Incorporated Organisation (CIO) as agreed in principle at the Extraordinary Meeting held 27<sup>th</sup> November 2024. Jane Owen from Humber and Wolds Rural Action (HWRA) provided information, advising KLASSIC has now registered as a CIO as a legal entity. This gives a window to close down the old Charity before transferring to the new charity before the end of the charities financial year. The next steps are purely fact finding, to be carried out by the Venue Manager. Land Registry need to be contacted to check what information they hold and if it matches with that held by the Official Custodian. Cllr Fox suggested that a business plan should be requested from the new CIO by the Town Council to demonstrate how it will be run and that this will be effective and efficient. Jane noted that the governing document provides a lot of this detail and that the CIO were working on the business plan as well which Cllr Frankish confirmed. Cllr Stephenson noted the requirement for a 'transfer of undertaking' and asked if this would require legal advice. Jane noted that if at any point legal advice is required, she would notify both parties (Town Council and CIO). The Council thanked Jane for attending and providing the update.

#### 2503/08 Humber and Wolds Rural Action – Rural Housing Project

Jane Owen (HWRA) provided an update on the Humber and Wolds Rural Action Rural Housing Project. The recent survey had resulted in twenty responses so far (which was considered to be a good response rate) and there is a fifty/fifty split

between those who need housing now and within five years. The need is generally around adapted properties for disabilities and starter homes. A report will be available prior to the next Town Council meeting, the report will be owned by the Town Council and could go into a future neighbourhood plan. Feedback will be welcome when the report is received. Further funding for the project is now confirmed, so further support can also be provided around potential sites if needed going forward.

2503/09 Police & Crime Commissioner funding – CCTV

The Clerk noted applications for Listed Building Consent and Planning Permission were approved by the planning authority. The Duke of Edinburgh Award volunteer will help with some continued updating of the website going forward.

2503/11 Planning

a. The Council considered the following planning application:

i. PA/2024/365

**Proposal:** Application for approval of reserved matters (appearance, landscaping, layout and scale) pursuant to outline application PA/2020/588 dated 26/03/2021 for a residential development comprising 79 dwellings, open space and associated infrastructure Amendment: development to comprise of a residential of 79 dwellings, amended planting scheme, 1.5m high close boarded fence with 300mm trellis to boundary with Lane End, footpath link from access road to the public open space, re-orientation of plots 72-74, amended site layout, amended cross sections, amended LEAP and boundary treatment plan, drainage strategy plan and updated BNG report and metric.

**Location:** Land off Ings Road, Kirton in Lindsey, DN21 4BX.

**RESOLUTION: That the Clerk responds with a comment to this planning application, noting recognition of the outline planning approval status, but that there remains a great deal of concern from residents within the community. It is also recognised that work has been undertaken to address previous concerns raised, with reports on flooding concerns and concerns over the preservation of privacy for existing dwellings. The area of development is known locally to flood regularly and the Town Council cannot comment on the accuracy and completeness of the reports submitted with the application. The Town Council remain particularly concerned about the bottom corner of the proposed site, the lowest part of the town which will flood in the future. The Town Council also note the lack of mention within the documentation about protection of the historic hedgerow on the Ings Road boundary which is important to the community and has been consistently requested to be protected. The Town Council strongly requests that a high standard is adhered to within any proposed development to include care for existing residents during any construction phases. The Town Council ask that the application and planning conditions to ensure a high standard of any development in this difficult location are considered carefully and that the application is called before the Planning Committee to achieve this.**
